
ELIZABETH RICH
(1935 – 2012)

Elizabeth always had an interest in flowers and wildlife. When she lived in London, she was a member of the London Natural History Society. She was, for many years, minuting secretary to the Council of the BSBI and a long-time member of the Sussex Botanical Recording Society. Her detailed knowledge

of the Sussex flora enabled her to make a significant contribution to the *Sussex Plant Atlas* (published 1980) and the *Flora of the Ashdown Forest* (published 1996).
