

# IDENTIFYING COMMON GRASSES

**SATURDAY 15 JULY 2017**

**10am – 4.30pm**

**Holyrood Education Centre  
Edinburgh**

*If you have a good basic knowledge of plant ID (perhaps from attending an **Identifying Wildflower Families** workshop) but feel somewhat intimidated when it comes to grasses, this second-level course promises to help.*

***Dr Faith Anstey** and **BSBI** tutors will offer expert guidance, helpful worksheets, plenty of hands-on study and a fieldwork session in the afternoon.*

**Concentrating on the 20 grasses you are most likely to come across regularly in neutral grassland, this workshop will give you a flying start at grass ID.**

**Plantlife**
