

RARE & SCARCE PLANT CHECKLIST FOR vc85

This is a list of all species in vc85 (Fife & Kinrosshire) with 5 records or fewer.

Some species are not included such as trees that have been planted and obvious short lived garden escapes.

Although some may be rare, the Rubus and Taraxacum species have been omitted as they require specialist confirmation and most of these species will have been recorded as agg.

Dates and places are from the Distribution Database, as is the designation.
