

Field Botany in Lanarkshire

Fieldwork Programme, 2023

Here is our programme for the first half of the 2023 season. You will receive an updates for the second half of the season sometime in June.

(Some events planned elsewhere, or by other organisations, may be included in italics for your interest. Details of official BSBI events, such as Workshops and Field Meetings, can be found on the BSBI website.)

We are hunting for 'new finds' (things not seen in a place before) and 're-finds' (things seen in a place before, but not recently). We normally work in **monads** (i.e. single map squares). Map references for the monads we are targetting are shown (e.g. **NS7358**).

Some of the locations are remote, or suffer from restricted access or parking. It is therefore more important than ever that we know who will be present. If you wish to take part in any event, **please email or text Michael Philip or Peter Wiggins no less than 24 hours in advance**. It would also be helpful for us to have confirmation of your mobile phone number, in case of any last-minute alterations or hitches. Please take note of the start time: it varies from outing to outing, so do check!

Sometimes finding the meeting-place will require some navigation skills. The grid references below will be more accurate than the postcode/satnav method, especially in open countryside. Please allow enough time to arrive on time. We expect reasonable standards of time-keeping, only because latecomers hold back the group. If you know you're going to be late, please phone (the mobile number is given below).

Michael's car is a blue Honda Jazz and he wears a red jacket. Peter's car is a blue Toyota CHR and he usually wears a dark green jacket.

We are all learning from each other and welcome all questions and discussion about plants and nature.

Finally, please be aware that your participation in any of these events is at your own risk.

We recommend that you bring your own food and water with you (less crucial for afternoon or evening events).

We have indicated on the programme the kind of terrain to expect. Take precautions over clothing and equipment, and be sensible about steep or boggy ground, climbing gates or fences, and pacing yourself. If you feel uneasy about distance, terrain or time, please say so - we won't ask anyone to go beyond what they feel they can do.

Thank you, and we look forward to seeing you soon!
