

# England's Top 20

### Daisy

A familiar white and yellow flower found in lawns and grassy places.

### Red Dead-nettle

Leaves like a nettle but with obvious pinkish flowers. It doesn't sting!

### Common Field-speedwell

Flower with four blue petals and hairy 'toothed' leaves.

### Dandelion

A yellow flower with jagged leaves found in lawns, grassy places and flowerbeds.

### Shepherd's-purse

A cluster of small white flowers, each with four petals, and distinctive heart-shaped seed pods.

### Hogweed

Big divided leaves, hairy stems, white umbrella-shaped or cauliflower-like flowers.

### Groundsel

Yellow flowers, sometimes in a cluster, with no petals. Weedy places and pavements.

### Gorse

Yellow flowers that smell of coconut in the sun. Watch out for the prickly spines!

### Hairy Bittercress

Clusters of tiny white four-petalled flowers (with four stamens) and upright seedpods.

### White Dead-nettle

Leaves like a nettle but with an obvious ring of white flowers. It doesn't sting!

### Hazel

A small tree with many branches, yellow dangly (male) catkins and tiny red (female) flowers.

### Winter Heliotrope

Beautifully scented purple flowers and big heart-shaped leaves.

### Annual Meadow Grass

A tiny grass. We recommend you submit a photo of this one.

### Smooth Sow-thistle

A dandelion look-alike but stem leaves have pointy bases which wrap around the stem.

### Lesser Celandine

Yellow Buttercup-like flowers with 7-12 petals and glossy heart-shaped leaves.

### Yarrow

Lots of tiny white flowers clustered into an umbrella shape. Leaves very feathery

### Ivy-leaved Toadflax

Lilac flowers and ivy-shaped leaves, grows out of walls and on gravel.

### Smooth Hawk's-beard

Tall plant with Dandelion-like flowers and leaves that 'clasp' the stem.

### Petty Spurge

Tiny, green-yellow, sea-anemone-like flowers are cupped by green, leaf-like 'bracts'.

### Primrose

Pale yellow flower with a darker centre and crinkly leaves.
