

Ireland's Top 10

Daisy

A familiar white and yellow flower found in lawns and grassy places.

Similar flowers: Feverfew, Mexican Fleabane

Dandelion

A yellow flower with jagged leaves found in lawns, grassy places and flowerbeds. There are over 200 species of dandelion in Britain and Ireland.

Groundsel

Yellow flowers, sometimes in a cluster, with no petals. Leaves jagged. Weedy places and pavements.

Gorse

Yellow flowers that smell of coconut when in the sun. Has the classic flower shape of a member of the pea family.

Annual Meadow Grass

A tiny grass found on pavements, gravel, bases of lampposts etc., We recommend you submit a photo of this one!

Winter Heliotrope

Beautifully scented purple flowers and big heart-shaped leaves.

Smooth Sow-thistle

A dandelion look-alike but usually much taller and the stem leaves have pointy bases which wrap around the stem.

Creeping Buttercup

Five yellow petals and look for a long groove down the flower-stalk; jagged leaves with pale marks.

Hogweed

Big divided leaves, hairy stems, white umbrella-shaped or cauliflower-like flowers.

Herb Robert

Pink 5-petaled flowers and deeply divided fern-like leaves. It's a bit smelly!
