

Scotland's Top 20

Gorse
Yellow flowers that smell of coconut in the sun. Watch out for the prickly spines!

Daisy
A familiar white and yellow flower found in lawns and grassy places.

Annual Meadow Grass
A tiny grass. We recommend you submit a photo of this one.

Groundsel
Yellow flowers, sometimes in a cluster, with no petals. Weedy places and pavements.

Dandelion
A yellow flower with jagged leaves found in lawns, grassy places and flowerbeds.

Shepherd's-purse
A cluster of small white flowers, each with four petals, and distinctive heart-shaped seed pods.

Pineappleweed
Small yellow-green cone-shaped flowers; whole plant smells of pineapple when bruised.

Common Field-speedwell
Flower with four blue petals and hairy 'toothed' leaves.

White Dead-nettle
Leaves like a nettle but with an obvious ring of white flowers. It doesn't sting!

Petty Spurge
Tiny, green-yellow, sea-anemone-like flowers are cupped by green, leaf-like 'bracts'.

Hazel
A small tree with many branches, yellow dangly (male) catkins and tiny red (female) flowers.

Red Dead-nettle
Leaves like a nettle but with obvious pinkish flowers. It doesn't sting!

Common and Atlantic Ivy
Clusters of smelly white flowers with yellow stamens.

Hairy Bittercress
Clusters of tiny white four-petalled flowers (with four stamens) and upright seedpods.

Thale Cress
Tiny white 4-petalled flowers, similar to Shepherd's-purse but the seedpods are long and thin.

Ivy-leaved Toadflax
Lilac flowers and ivy-shaped leaves, grows out of walls and on gravel.

Common Chickweed
White flowers with ten petals. A line of hairs on the stem that changes sides between leaves.

Hogweed
Big divided leaves, hairy stems, white umbrella-shaped or cauliflower-like flowers.

Feverfew
Tall plant with Daisy-like flowers and very smelly leaves!

Smooth Hawk's-beard
Tall plant with Dandelion-like flowers and leaves that 'clasp' the stem.
