

– Aims and developments in 2017 –

- The scheme aims to deliver accurate measures of change for species within semi-natural habitats
- 22 training workshops with 174 participants
- Local mentoring schemes in place
- Photos flow to iRecord for verification; data flow to DDb (soon)
- Resources: YouTube habitat videos, Plant Cribbs, EUNIS/Annex 1/NVC links
- Partnerships with WT's, National Trust, AONBs, National Parks

Total no. samples 2015-17	
Wildflower	2203
Indicator	3432
Inventory	3573
