duciption Dear Ro. Bundody. Herewith Miss Raw lus' acaries, In so good that pick Lane Item , everythis will be together. I'm Sur ? Rolew once about her starting in botany, but I can't remember. I learnt a lot from her, some of it machate, I must say, but it startes me, ~ I suppose for to. I thank the wasi's to intersted in the flowers Theme Selve, more in fludy them, o Il this this is lood effects So clad to bear Roger Good weller

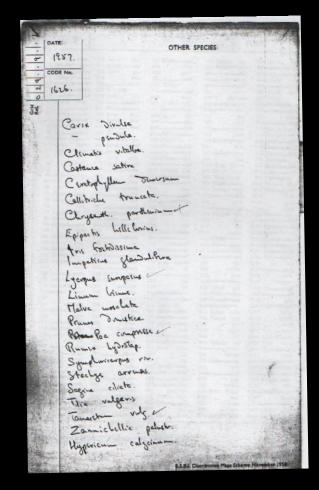

to slants or Vil Delley. I day say some I Mks Randund' Kilkenny records will help him, they are rather our & him bear, She found Pyrola humor an Pyrouthore, she showed in to be a sh is on the R. Side going down the avenue, the I don't revenue there in the wood. the just puts "Dyset mai in the deary o I don't think anyon eke except in knows where, a long knowledge is I but Vegrenten opaid. How loves seen the New Forest in writer. I was to be there she ar School in Unstehned, hot & course interested in plower then, a have been rushed roud be; how rarilies a fer Tilme, but I don't know it superty. Let we kno when we come when vill to a look at somether. Jour in Juch
