

Field Botany in vc76, vc77 & vc99

Fieldwork Programme, April-September 2024

Important: please read carefully!

Here is our programme for the whole 2024 season.

(Some events planned elsewhere, or by other organisations, may be included in italics for your interest. Details of all official BSBI events, such as Workshops and Field Meetings, can be found on the BSBI website.)

We are mostly hunting for 'new finds' (things not seen in a place before) and 're-finds' (things seen in a place before, but not recently). We normally work in **monads** (i.e. single 1km map squares). Map references for the monads we are targeting are shown (e.g. **NS4686**).

Some of the locations are remote, or suffer from restricted access or parking. It is therefore more important than ever that we know who will be present. If you wish to take part in any event, **please email or text Michael Philip or Peter Wiggins no less than 24 hours in advance**. It would also be helpful for us to have confirmation of your mobile phone number, in case of any last-minute alterations or hitches. Please take particular note of the start time: it varies from outing to outing, so do check! Some outings are not at weekends: again, please check!

Sometimes finding the meeting-place will require some navigation skills. The grid references below will be more accurate than the postcode/satnav method, especially in open countryside. Please allow enough time to arrive on time. We expect reasonable standards of time-keeping, only because latecomers hold back the group. If you know you're going to be late, please phone (mobile numbers are given below).

Michael's car is an orange (yes, it's now orange!) Honda Jazz and he wears either a red or a bright yellow-green jacket. Peter's car is a blue Toyota CHR and he usually wears a dark green jacket.

Plant training: we are all constantly learning from each other and will always welcome questions and discussion about plants and nature - but this season we have decided to earmark a number of outings to place particular emphasis on training in plant identification (highlighted in green and marked '**TRAINING**'). If you or any of your contacts want to work on plant skills, these dates may be of particular interest.

Finally, please be aware that your participation in any of these events is at your own risk.

We recommend that you bring your own food and water with you (less crucial for afternoon or evening events).

We have indicated on the programme the kind of terrain to expect. Take precautions over clothing and equipment, and be sensible about steep or boggy ground, climbing gates or fences, and pacing yourself. **It is of the utmost importance that everyone remains in contact with the group throughout.** If you feel uneasy about distance, terrain or time, please say so - we won't ask anyone to go beyond what they feel they can do.

Thank you, and we look forward to seeing you soon!

Michael Philip email: botany@opus44.co.uk mobile: 07811 749296

Peter Wiggins email: pswiggins@gmail.com mobile: 07951 160870

Key: **vc99** = Dunbartonshire **vc76** = Renfrewshire **vc77** = Lanarkshire

Outings for all three areas are included on a single published Programme this year for the first time.
Please note: not all outings are at weekends!

** For outings marked with red asterisks, some public transport information is given at the foot of the document. **

<u>Date</u>	<u>Day</u>	<u>Time</u>	<u>Where</u>	<u>What</u>
21st April **	Sunday all day	10.00	Croftamie (west) **	Easy walking for an early season limber-up
vc99	NS4686 NS4786		Meet 10am at 'The But & Ben' Postcode: G63 0EU Grid Ref: NS477861	(roads, tracks, open ground, woodland)
27th April **	Saturday all day	10.00	Erskine Harbour **	Varied habitats in the early season
vc76	NS4671		Meet 10am at small carpark: (Kilpatrick Drive, near junction with Bridgewater Place) Postcode: PA8 7BF Grid Ref: NS470708 (NB postcode is approximate)	(tracks, open ground, woodland, riverbank, wet areas)
TRAINING
