

# Plantlife Scotland 2018 Update

Plants and fungi are the life support for all our ecosystems...

...but without our help, this priceless natural heritage is in danger of being lost forever.

UK's rarest plants are at risk of extinction, charity warns

We are witnessing a gradient of decline in which widespread species become scarce and scarce ones become rare, while some rare ones eventually tip over the brink into the abyss of extinction.

### Plantlife Scotland Joins Chris Packham's UK Bioblitz

Plantlife Scotland recently participated in Chris Packham's UK Bioblitz 2018 - [Nature Reserves Are Not Enough](#). This two-week long tour of wildlife hotspots throughout the UK has been designed to raise awareness of the plight of the UK's wildlife.
