### Help support BSBI's work

We carry out surveys and run projects across Britain and Ireland.

BSBI members record, map and monitor what grows where, and how this is changing over time.

We are now one of the world's largest contributors of biological records, providing scientific data to academia, conservation bodies and policy-makers.

We publish essential identification handbooks and atlases of the British & Irish flora; we help fund local Floras and county Rare Plant Registers.

Irish Marsh-orchid (*Dactylorhiza kerryensis*)

### BSBI's botanical network

~3,000 members

186 expert County Recorders

112 Referees for 157 difficult plants/groups

Two dedicated Referees to support our beginner botanists.
